THE WILL OF GOD ?

Beloved Children:

The Ascended Masters tune in constantly to the Will of God to place Their facul-es and capacities at the service of The Father to make His Will manifest, with all Their eat Strength.

The Will of God contains a perfect picture for the Earth and for all of Its crea-res. There is, perhaps, no greater means to serve God than for Volunteers to see God's ll done on the Earth plane and so The Ascended Masters turn to the planet Earth rhythmi-lly to render service. They meet the free-will of the Earth people with which They can-t, by Cosmic Law, interfere, so The Ascended Ones see They will require, first and remost, some unascended individuals who have the same interests and desires to render rvice, The Ascended Masters then decide on those dear chelas whose vibrations, tone, lor and keynote are harmonious to Their own. Their joy is great when such aspirants found. Sometimes The Ascended Ones must listen long before the faint rays of such vi-ations can be picked up from the vast and moving throng of men - other than the students Light, who are already acquainted with The Ascended Host.

When They find a group who can be used as potential outposts for Their services e Ascended Masters pour forth Their radiation, intensifying whatever service is required the moment, and thus the chela benefits greatly thereby, because the Ascended Master ality flowing through the chela becomes part of his own being. The more the chela co-erates with The Ascended Masters in rendering world service the sooner Earth will become gain Freedom's Holy Star.

This is the heart desire of The Ascended Host and one which must be fulfilled uickly in order to raise the vibratory action of the Earth which is necessary for her volutionary progress.

You are so precious to Us, so necessary - for you are Our outposts on Earth.

Love and Blessings

THE MAHA CHOHAN
